4 Levelling-up and Regeneration Bill and Reforms to National Planning Policy

The Consultation can be found at:

<https://www.gov.uk/government/consultations/levelling-up-and-regeneration-bill-reforms-to-national-planning-policy/levelling-up-and-regeneration-bill-reforms-to-national-planning-policy>

The Government has made this complicated. The consultation seeks views on the Government's proposed approach to updating the *National Planning Policy Framework*. It also seeks views on the proposed approach to preparing *National Development Management Policies*, how policy might support 'levelling up', and how national planning policy is currently accessed. A response to 58 questions is invited by 11.45pm on 2nd March 2023.

The main changes proposed to the *National Planning Policy Framework* would make clear that local planning authorities need not provide all the dwellings forecast by the Government's standard method if there are Green Belt or other policy constraints in their area, including the character of the area. An annotated version of the NPPF showing the changes proposed is attached to this agenda.

A fuller review of the Framework will be required in due course, and its content will depend on the Government's proposals for wider changes to the planning system, including the Levelling-up and Regeneration Bill. For example, policy for town centres and employment land uses urgently need to be updated post Brexit, COVID and changes to the Use Classes.

The Committee should consider if and when Seal Parish should respond.
